The Eighth Congress of the WPK was held along with the full display of the delegates' revolutionary will to remain boundless loyal to the extraordinary ideological and theoretic wisdom and experienced leadership of the Party Central Committee and decided them to fully implement the decisions taken at the Congress and to serve the great people as in Heaven.

The 8th Congress of the WPK adopted with the unanimous approval of all its participants the resolution-"On thoroughly implementing the tasks set forth in the report on the work of the 7th WPK Central Committee" and reviewed the brilliant victories and successes achieved by WPK and people for an epochal advance of the cause of socialism for the past 5 years.

Thanks to dear Comrade KIM JONG UN, always anxious for the dignity, prosperity of the nation and its dear socialism, presented new lines of struggle and strategic and tactical policies for a breakthrough in the socialist construction.

We social and friendly organizations of Nepal studying the immortal Juche idea and Songun policy and working for

strengthening the friendly relations between our two countries are much influenced by the great nationalist feelings of the entire people and by the leadership of the WPK.

Our study forums and social and friendly organizations should learn much from the successful 8th Congress of the WPK and conduct our activities accordingly. We are much influenced by the people-first politics of the WPK, filled with faith, devotion, repayment, and loyalty, and has strengthened the political and ideological position of the Korean revolution and Korean-style socialism centered on popular masses-first politics.

As we all know that the struggle of the heroic Korean people and the WPK to carry out the decision of the 7th Congress of the Party is an active offensive battle to open a new path for socialist construction by grasping self-reliance as a lifeline of self-esteem and self-support, as a powerful development engine overcoming all the difficulties.

It is crystal clear that the Korea was divided by the USA, the world's first nuclear power and still the imperialist forces and their allies are trying to stifle the dear socialism of the Korean people continuing with the economic blockade and sanctions on DPRK for many decades. Still the Korean people are marching ahead and ready to blast themselves to save their great leader and the dear Korean-style socialism centered on popular masses enjoying love and trust among the Party, leaders and people,

To save the fate of the revolution and the DPRK, it was rather urgent for the WPK to enhance the self-defense against the

war mongers. In this context, world progressive and peace-loving people are much satisfied to know the fact that the DPRK under the direct guidance of the Party Central, the medium-range and intercontinental ballistic missile of the Hwasong Artillery series and the underwater and ground-launched ballistic missile of the Pukkuksong series were born in Korean way in accordance with the unique operational mission of the DPRK as a nuclear power, which enabled the DPRK to build a perfect nuclear shield and to solidify a strong and reliable strategic deterrent capable of responding any threat.

Thanks to the correct leadership and WPK guidance, the nuclear weapons were miniaturized, standardized and tactical weapons and the development of super-large hydrogen munitions, super sized missiles, anti-aeronautical rocket assembly, anti-armed weapons have also been developed and were completed and with great success the historical cause of the completion of the national nuclear armed forces and the realization of the great missile power has been achieved in DPRK which was most urgent for the DPRK to save its sovereignty and dignity and to build a strong socialist nation by defending the peaceful environment of the socialist construction.

The resolutions of the 8th Party Congress are a clear road map for the bright future of the DPRK and reputation of great power and prosperity at the crucial time of linking the glorious 75 year-history of the Workers' Party of Korea to the one of 80 years. It shows the deep expression of the revolutionary will of millions of Party members to achieve a new triumph of socialism by deeply

cherishing once again the idea of believing in the people as in Heaven and the idea of the single-minded unity and self-reliance.

We have one proverb in English - Morning shows the Day! I want to quote the speech made by respected General Secretary His Excellency Marshal KIM JONG UN in the concluding speech of the 8th Congress, which has touched my heart. He said -"Fully aware of the sacred mission that I am representing and in charge of the great Kimilsungist-Kimjongilist party, I solemnly pledge that I will make every effort to implement the fighting programmes put forth by the Party congress and, regarding our great people as the god of my life, work at the risk of my life as a faithful servant of the people on the road of devoted service for them."

Here lies the greatness of great leader. There are thousands of leaders in the world, but I have not heard yet such words of greatness from anyone of them, So, Comrade General Secretary KIM JONG UN is really a peerlessly great leader of the contemporary world!

There is no doubt that the Korean people under the wise guidance of such peerlessly great leader will achieve a great fresh victory on all fronts by remarkably increasing their own strength, their internal force in socialist construction.

Now the Korean people have started achieving the first year's goal within their 5-year plan. The Korean people are launching a do-or-die struggle to implement without fail the new five-year plan for the national economic development and they are concentrating their all-out efforts from now more vigorously focusing the important revolutionary task of the socialist economic construction.

Availing myself of this opportunity I sincerely extend my continuous support and solidarity to the truth-loving Korean people who are struggling hard to achieve the goal set forth by the 8th Party Congress under the superb leadership of their dear General Secretary and wish Comrade KIM JONG UN for his good health and happiness to achieve final victory of the socialist cause, the life time aspiration of great leader President KIM IL SUNG and great leader Comrade KIM JONG IL!

While celebrating the Day of the Sun, I pay my great respect to President KIM IL SUNG.

President KIM IL SUNG and Comrade KIM JONG IL will be with us forever!
