
Report of 14th Meeting of Executive Committee of International Institute of Juche Idea

Vishwanath

Director General, Board of Directors of
International Institute of Juche Idea (IIJI)

It has been two years since the 13th meeting of the Executive Committee of the International Institute of the Juche Idea (IIJI) was held on April 13 2011.

I would like to outline the works made in the IIJI, and different countries and regions during those years and discuss the future tasks and orientation to further invigorate the study and dissemination of the Juche idea on a global scale.

The demise of General Secretary Kim Jong Il on December 17 2011 brought a great shock and sorrow for the Juche idea researchers in the world who have conducted activities to celebrate the 100th anniversary of the birth of President Kim Il Sung with him.

But today First Secretary Kim Jong Un who has inherited faithfully the idea and leadership

of President Kim Il Sung and General Secretary Kim Jong Il carries forward splendidly the revolutionary cause of Juche. This gives the endless hope and encouragement to the progressive people of the world.

1. World Congress on Juche Idea held successfully

The 13th meeting of the IIJI Executive Committee discussed the holding of the World Congress on the Juche Idea in a grand style in Pyongyang on the occasion of the Day of the Sun in 2012 marking the centenary of the birth of President Kim Il Sung and that the Juche idea researchers in the world study and disseminate

the Juche idea more positively in their regions and countries and establish an atmosphere of congratulating the commemoration day.

The World Congress on the Juche Idea was successfully held with the attendance of all the Juche idea researchers from different countries congratulating sincerely the centenary of the birth of President Kim Il Sung.

The Juche idea researchers from different countries felt freshly, through various events, greatness of the feats performed by President Kim Il Sung and that the role played by the leader in pioneering the human history is decisive.

They could witness the looks of First Secretary Kim Jong Un who inherits and leads the revolutionary cause of Juche as the successor to General Secretary Kim Jong Il during their stay.

The Juche idea researchers from different countries made a fresh determination to study and disseminate Kimilsungism-Kimjongilism more actively in their countries in order that the world people could unite and fight under the banner of anti-imperialism and independence.

2. Kimilsungism-Kimjongilism, guiding idea of humankind, which ushers in age of independence

First Secretary Kim Jong Un clarified that the revolutionary idea and exploits of President Kim Il Sung and General Secretary Kim Jong Il are the same and declared the idea Kimilsungism-Kimjongilism in the work "Let Us Brilliantly Accomplish the Revolutionary Cause

of Juche, Holding Comrade Kim Jong Il in High Esteem as the Eternal General Secretary of Our Party" published on April 6, 2012.

Kimilsungism-Kimjongilism is an integral system of the idea, theory and method of Juche and a revolutionary ideology representative of the Juche era.

As Kimilsungism-Kimjongilism is the idea to build a society where independence, man's nature, is realized by the creative activities of the popular masses, it is a universal and viable guiding idea that everyone who aspires for independence can accept as one's own.

Kimilsungism-Kimjongilism can be declared only by First Secretary Kim Jong Un, the successor to the revolutionary cause of Juche. This shows clearly that First Secretary Kim Jong Un is the ideological, theoretical and practical successor to President Kim Il Sung and General Secretary Kim Jong Il.

It can be said that Kimilsungism-Kimjongilism is the just succession to and further development onto a new stage of Kimilsungism.

First Secretary Kim Jong Un who inherits the idea and leadership of President Kim Il Sung and General Secretary Kim Jong Il declared Kimilsungism-Kimjongilism and thus the world has come to enter the new century of the Juche era.

Today the Juche idea can be studied and disseminated on a global scale in accordance with Kimilsungism-Kimjongilism.

The struggle of the world people who demand independence can accelerate global independence only when it is radically changed into the struggle with the guiding idea in the era of independence upheld.

3. Major works made in different countries and regions after 13th Meeting of IIJI Executive Committee
