Key Points of Speech: 40th Founding Anniversary Commemorative Event of IIJI

Edmond Jouve

Director General of the ERSSJI Board, professor emeritus at University Paris Descartes, France

“For more than 30 years when I worked as director general of the European Society for the Study of the Juche Idea (ERSSJI), I have studied the Juche idea in keeping with the rules of the ERSSJI and

made efforts to disseminate it. I tried to explain that the DPRK has the system fundamentally different from the Western ones, and that it has implemented the instructions of Kim Il Sung, Kim Jong Il and Kim Jong Un who turned the country into an independent socialist state that represents the Korean people’s interests. In this way I have showed the model of socialism to the world people.”

Kamakura Takao

Director of the IIJI Board, professor emeritus at Saitama University, Japan

“As the grounds for the powerfulness of the DPRK, first: it has adhered to the people-centered socialism based on the Juche idea in any adverse circumstances; second: the Korean style socialism has set the

popular masses as the motive force of the socialist revolution and construction, and third: it has materialised solid ideological unity of the leader, the Party, the army and the masses, i.e., the formation and establishment of their own consciousness and ideology, along with the modeling of entire people after Kimilsung-Kimjongilism.”

Eleazar Rubio Aldaran

Secretary General of the LAIJI, advocate, Mexico

“The DPRK has advanced with the banner of Juche, proving its truthfulness and superiority theoretically and practically.

“We should further intensify the study, analysis and dissemination of the Juche idea and Songun idea so as to convince the Latin American people that the building of a new world for independence is possible.”

Lohekele Kalonda Andre

Secretary General of the ARCSJI from DR of the Congo

“The Juche idea researchers must consolidate inter-regional, national and continental solidarity when necessary. We, the Juche idea researchers, must always keep in our minds that we are eternal comrades-in-arms whatever circumstances, happiness or sadness, might be.”

Luke Lkhaasuren

Advocate from Mongolia

“The fall of capitalism is inevitable and natural process. That Mongolia fell a victim of the capitalism was attributable to the fact that it did not develop a viable policy of planning and development nor promote self-determination for its people. Self-determination and the right of self-determination at all levels is crucial for any nations, communities and individuals.
