

# Let Us Dynamically Hasten Cause of Global Independence Upholding Banner of Kimilsung-Kimjongilism

**Ramon Jimenez Lopez**

Director General, Board of Directors, International Institute of Juche Idea

40 years have elapsed since the International Institute of the Juche Idea (IJJI) was inaugurated as the international base for disseminating widely the Juche idea founded by President Kim Il Sung.

The IJJI was founded in Tokyo, Japan in April 1978 by the people's unanimous desire to found an organization of worldwide scale for studying and disseminating the Juche idea that had won sympathy of progressive scholars and people in different countries from the end of the 1960s and widely disseminated as the world ideology in the latter half of the 1970s.

Looking back upon the victorious and glorious road covered by the IJJI, we commemorate meaningfully its 40th founding anniversary with big pride and self-confidence that the successes and experiences gained by the IJJI are wealth common to us.

Availing myself of this meaningful opportunity, I,

on behalf of the Board of the IJJI Directors, extend warm welcome and sincere greetings to you who were sympathized by the greatness and truthfulness of the Juche idea and joined the ranks of the Juche idea researchers out of your faith and have devoted every wisdom and enthusiasm for the independent development of country and nation and the cause of global independence.

I express my high respect to the people who devoted their whole life to the study and dissemination of the Juche idea and the human cause of independence.

My gratitude also goes to the figures from political and academic circles and all walks of life in Mongolia who gave us warm welcome and hospitality and provided every convenience for the holding of the 40th founding anniversary of the IJJI.

This meeting, held in the period when the people's desire for independence gets stronger than ever before, will be a new milestone and a historic occasion

---

in accomplishing the independent development of countries and nations and the cause of global independence.

The foundation of the IIIJ was a due result responding to the requirement of the era and the aspiration of humankind, and the validity of its existence was proved by the past 40-year long history.

Truthfulness of progressive ideology is decided by to what extent it is disseminated and how long it maintains its viability.

Not only in the past historic period but now the Juche idea has proved its invincible vitality in the revolutionary practice in many countries, and thus has become the approved truth and universal doctrine.

The Juche idea founded by President Kim Il Sung and developed by leader Kim Jong Il has been formulated as Kimilsung-Kimjongilism and is now shining more brilliantly as the guiding ideology of our era thanks to Chairman Kim Jong Un who inherits their intentions.

Kimilsung-Kimjongilism strikes its root deep in the hearts of hundreds of millions of the people as the guideline leading the independent development of all countries and nations, the banner of building an independent new world, a peaceful and fair new society.

At present, Kimilsung-Kimjongilism is being rapidly disseminated on a worldwide scale arousing great sympathy among the progressive people and its influence gets bigger with each passing day as it enables each country and nation to achieve independent development and prosperity and hasten the building of a fair new world.

Uncommon force of traction and invincible vitality of Kimilsung-Kimjongilism is being proved clearly by the distinguished leadership of Chairman

Kim Jong Un who illuminates the road ahead of the era and mankind and wisely leads his people's struggle for the building of a powerful socialist country, national reunification and the cause of global independence.

For its universality, Kimilsung-Kimjongilism has become the main trend of thought in our era that encourages and propels the world progressives to the revolutionary struggle for independence, the approved guiding ideology representing the whole historic process of human future and the ever-lasting ideology.

The reality in which Kimilsung-Kimjongilism displays its vitality as the most progressive ideology touching the hearts of mankind is inconceivable without the tireless activities the IIIJ made for the last 40 years since its foundation.

The foundation of the IIIJ was the proud declaration heralding that the study and dissemination of the Juche idea, made in different countries and regions through different forms and methods on different extents and levels, would be done with the regular system on an international scale and with an organized force. It served as an epoch-making occasion in studying and disseminating this ideology in a unified way on the worldwide scale and hastening global independence.

Thanks to the foundation of the IIIJ, we could have a pivotal organization and a core base that organizes the study and dissemination of Kimilsung-Kimjongilism strategically on a worldwide scale and leads so that the activities can be made with purposefulness.

During the last 40 years, the IIIJ has made profound study and wide dissemination of Kimilsung-Kimjongilism and thus fully performed its noble mission and duty in advancing the sacred cause of the

people's independence to victory.

The IJJI underwent turns and twists in its activities, and pains and losses due to the collapse of socialism in East European countries in the 1980s and the 1990s, the desperate anti-socialist machinations of imperialists and reactionaries and the betrayal of those who were not firm in faith.

However, the IJJI has remained unchanged but conducted the study and dissemination invariably holding aloft the banner of Juche while braving challenges and difficulties.

The IJJI has also made great exploits in sublimating Kimilsung-Kimjongilism into the world doctrine beyond the bounds of one nation and the common political ideal of progressive people aspiring after their national dignity and independent development and in turning into the world trend the implementation of human cause of independence led by Kimilsung-Kimjongilism.

The important exploit performed by the IJJI is that it enabled the study organizations of the world to deepen their activities and strengthened themselves in close relations with each other centring on the IJJI, thus hastening the cause of global independence dynamically.

Successes achieved by the IJJI for the last 40 years are big and precious ones incomparable to those made in the period when each national organization had existed and made activities individually.

Today, the study and dissemination of Kimilsung-Kimjongilism is developed in depth on a worldwide scale through the different occasions of seminar, lecture, publication and exhibition of works, celebration meeting and photo exhibition, writing and public presentation, film show and publication of periodicals and by utilizing the modern information,

scientific and technical means such as internet, and, in this process, the guiding ideology of the era, the universal ideology of humankind is being applied in conformity with the actual conditions of several countries and regions.

40-year long history of the IJJI was the proud course in which the validity and universality of the ideology that reflects the popular masses' aspiration and demands have been fully displayed and its attraction increased with the passage of time. It was also the course that achieved ideological and mental emancipation of progressive people and enabled each country and nation to bring about independent development and prosperity with conviction by themselves in conformity with their actual conditions.

Today, we face the important tasks to further activate the study and dissemination of Kimilsung-Kimjongilism in keeping with the requirements of the new century and the independent development of our countries and nations and the aspiration of progressive people for global independence, and make proactive efforts to make the study and dissemination active and effective in the building of a new society.

Popular masses are makers of social history, but they must be awakened and organized if they are to perform their role as such.

Study and dissemination of Kimilsung-Kimjongilism is the important work to awaken and organize the broad masses of the people. In order to make brisk the study and dissemination among the broad masses of the people, it is important to build up the Juche idea study groups and strengthen their activities.

Before anything else, it is necessary to channel big efforts into the enhancing of the IJJI position and role.

All undertakings need a pivotal organization

leading and propelling them. There is no exception in the study and dissemination of Kimilsung-Kimjongilism aspiring after the independent development and prosperity of countries and nations and global independence and peace.

Through its history the IJJI verified the validity of its existence and activities. The IJJI has fully demonstrated its appearance befitting a standard-bearer in studying and disseminating this ideology in the era of independence and hastening the struggle of global independence, and its significance get increased with each passing day.

It is important to strengthen the IJJI Board of Directors, and elect prominent figures and scholars its directors and enhance their responsibility and role. It is also important to reinforce its secretariat, the executive organ and enhance its role further.

The IJJI should make the regional institutes and the Juche idea study groups in each country hold independence in their activities and, at the same time, make efforts to analyze the experiences and successes made on an international scale and develop the study and dissemination of Kimilsung-Kimjongilism on a new high phase.

The regional institutes, all Juche idea study groups and researchers should respect and trust in the position of the IJJI and firmly maintain the stand of being comrades, and companions sharing the same destiny and the attitude of cooperating with each other. Only when the relations of mutual respect and cooperation are established, can the study groups in each region and country be active and further strengthened as living organisms with the IJJI as an axis.

Relevant regions and countries should strengthen and enhance the role of regional institutes and study groups in each country.

Master of study and dissemination of Kimilsung-Kimjongilism in each country is the study group in the country. Neither international organization nor regional organization can take the place of studying and dissemination in each country.

The study groups in each country should organize and study and disseminate Kimilsung-Kimjongilism in accordance with the concrete condition of their countries and demands of their people. They should do it on the basis of respecting history and tradition of each country and the ideals of the masses, thus making this ideology strike its root deep into the hearts of all the people and come into brilliant reality.

It is necessary to carry forward the study and dissemination of Kimilsung-Kimjongilism from generation to generation and conduct them faithfully and offensively in different forms and ways.

The study and dissemination of Kimilsung-Kimjongilism should be intensified through generations as generation changes constantly.

Like all social phenomena, generation change is indispensable in our work. Present realities require us to study and disseminate Kimilsung-Kimjongilism continuously without interruption or stalemate and bring about ceaseless progress in the ideological and theoretical activities on a new level.

It is necessary to involve younger generations in our ranks, raise their theoretical level, cultivate their ability and make them continue the study and dissemination faithfully. Deep attention should be directed in seeking for enterprising and enthusiastic young talents to train them to be the theoretical core members and the work with the young people made active. It is necessary to lead actively and encourage the younger generations to make bigger successes in the study and dissemination of Kimilsung-

Kimjongilism than our generation.

Forms and ways should be further improved in studying and disseminating Kimilsung-Kimjongilism.

Even though it is great ideology, one is unable to make success if one studies and disseminates it in the wrong forms and ways. Forms and ways should be consistently improved in order to study and disseminate Kimilsung-Kimjongilism among many people and in many countries and regions. New methods utilizing the ultra-modern scientific and technical means should be found as required by the developing reality and different levers such as the press, publication and education applied to increase constantly the effectiveness of its study and dissemination.

It is important to learn from the successes and experience gained by the DPRK people in advancing the revolution and construction under the banner of Kimilsung-Kimjongilism and applying them in conformity with the concrete conditions of one's country.

It is important to support the DPRK struggling for the cause of socialism and the building of a powerful country and national reunification, and learn from its experiences.

The reality of the DPRK, where the entire army and people hold high President Kim Il Sung and leader Kim Jong Il forever and advance dynamically along the road of independence and socialism, rallied behind Chairman Kim Jong Un, tells clearly the validity and invincibility of Kimilsung-Kimjongilism.

Experience of socialist Korea eloquently proves the fact that we can accomplish our cause without fail, braving difficulty and trail, if we hold fast to Kimilsung-Kimjongilism.

All the Juche idea study groups and researchers

should make active efforts to study and learn after the example of socialist Korea.

Important is not to grasp and cognize Kimilsung-Kimjongilism as a simple theory but to apply it in keeping with the realities of one's country.

That we study Kimilsung-Kimjongilism is not merely to cognize its truthfulness but to achieve the independent development and prosperity of our countries and nations and build a new society by applying its truth.

We should apply Kimilsung-Kimjongilism, the universal guiding ideology in the present era and the guideline for developing and changing the world, in conformity with concrete situation and practical conditions in our countries and regions. Thus, we should make it display its vitality as a powerful weapon of practice by combining theory with practice in our countries and regions and over the world.

If we make profound study of Kimilsung-Kimjongilism and apply it and if our countries and nations develop on a new high phase, this will be a historic event proving validity and vitality of Kimilsung-Kimjongilism once again in different countries and regions of the world as well as in the DPRK.

Nothing is more valuable than devoting our lives to the study and dissemination of Kimilsung-Kimjongilism.

Cherishing pride and self-confidence, extraordinary readiness and decision of being disseminators of this ideology, the pioneers of the era, we should study and disseminate Kimilsung-Kimjongilism proactively and thus make active contribution to the accomplishment of the human cause of independence.

Truth wins everlasting victory.

Ultimate victory of Kimilsung-Kimjongilism is

definite.

Not only as a theory but through reality, the people cognize more deeply that Kimilsung-Kimjongilism is the only great ideology illuminating the road for carving out man's destiny, the road for the independent development and prosperity of country and nation, the road for global independence.

The people's aspiration to follow Kimilsung-

Kimjongilism gets ardent as days go by in the new century and history advances dynamically along the orbit of independence.

Let us make dynamic efforts to build an independent new world free from domination and subordination, intervention and pressure, holding aloft the banner of Kimilsung-Kimjongilism.
